Summary

Motivated engineering graduate with strong work ethics, adaptability, and problem-solving skills. Passionate about software development and innovative solutions, seeking opportunities to apply my technical knowledge and contribute effectively in challenging roles.

Education

Bachelor of Engineering (ECE) <i>KLS Vishwanathrao Deshpande Institute of Technology, Haliyal</i>	Dec 2022 – May 2026 <i>CGPA: 8.8/10</i>
PUC (11th & 12th) <i>Smt. Vidya P. Hanchinamani PU College, Dharwad</i>	Jan 2021 – May 2022 <i>Percentage: 89%</i>
Primary & High School <i>St. Theresa English Medium School, Alnavar</i>	Jun 2016 – Apr 2020 <i>Percentage: 92.32%</i>

Internship

Data Analytics Internship	Feb 2025 – May 2025
Worked on Excel and Power BI for data cleaning, visualization, and dashboard design. Learned to analyze datasets for insights and reporting.	
Java Full Stack Intern	Feb 2026 – May 2026
Completed a Java Full Stack Internship where I gained hands-on experience in Java, HTML, CSS, JavaScript, and SQL, along with frontend and backend development concepts and web application development.	

Skills

Programming: Java, C++, Python, SQL, HTML, CSS, JavaScript
Frameworks/ Technologies: Spring Boot, Hibernate, React.js, Next.js, Flask, JDBC, REST APIs, Maven
Tools: Git, GitHub, VS Code, Eclipse, Streamlit, MS Office, Power BI, Excel, PyCharm, Streamlit

Projects

Book My Ticket— Java, Spring Boot, Hiberante,MySQL, HTML,CSS	Feb 2026 – May 2026
Developed a full-stack movie ticket booking application using Java, Spring Boot, Hibernate, MySQL, HTML, and CSS, with features such as user authentication, seat reservation, and database integration.	
Crop Recommendation System—Python, Flask, Streamlit	Jul 2025 – Nov 2025
Developed a crop recommendation system using Logistic Regression and Naive Bayes algorithms with a Python backend and Streamlit interface, providing crop recommendations based on soil nutrients, temperature, humidity, and pH values.	
Design and Comparative Analysis of 8-bit Multipliers— Verilog HDL	Oct 2023 – Aug 2024
Implemented and analyzed 8-bit Vedic and Wallace Tree multipliers using 45nm CMOS technology, comparing delay, area, and power consumption for performance evaluation.	

Strengths & Interests

Strengths: Adaptability, Problem-solving, Team Collaboration, Leadership, Commitment to Excellence
Interests: Reading Books, Anchoring Events, Gardening, Listening to music

Leadership & Achievements

- Selected as IEEE Day 2025 Ambassador for Bangalore Section to represent and promote IEEE initiatives at global level.
- Participated in IEEE CAS Bangalore “Institute to Industry Forum 4.0”
- Contributed as a volunteer for Code Battle – 2k25, a national-level hackathon, assisting in event planning, participant management, and ensuring the smooth .
- Served as “Chair of the IEEE Student Branch” at KLS VBIT, leading student engagement and technical initiatives.

Declaration

I hereby declare that the information provided above is true to the best of my knowledge and belief.
